

Mid-Level Backend Developer (JavaScript / Node.js) at CAEmate

We're looking for a Mid-Level Backend Developer who's ready to contribute to our dedicated team.

About CAEmate

CAEmate is an Engineering Software company developing disruptive technologies for Monitoring and Predictive Maintenance of Infrastructures (bridges, viaducts, tunnels, slopes, buildings, wind towers). Our mission is to digitalize infrastructure while making it safer and smarter. We strive for safety, sustainability and innovation, and we are committed to fostering an engaging, innovative work environment.

Role Description

As a Mid-Level Backend Developer, you will play a key role in the design and implementation of larger components or features of our platform. Working independently and collaboratively, you'll get to mentor our junior team members, while implementing innovative solutions for Structural Health Monitoring.

Key Responsibilities

- Developing server-side logic, ensuring high performance and responsiveness
- Integration of front-end elements with server-side logic
- Implementing data storage solutions
- Writing reusable, testable, and efficient code
- Addressing and improving any technical issues
- Collaborating well with team members to plan and deploy product updates

Your Profile

- Degree in Computer Science/Software Engineering or related field
- Proficient in JavaScript/Node.js
- Solid understanding of data structures, algorithms, object-oriented design and systems architecture

- Ability to integrate multiple data sources and databases into one system
- At least 3 years of professional experience in software development
- Proven experience in developing and managing well-functioning databases and applications
- Strong problem-solving skills, with a knack for tackling complex development problems
- Good command of written and spoken English.

Our Offer

- Young, dynamic team of engineers and developers
- Modern office within the NOI TechPark innovation campus
- Flat hierarchies with short communication channels and quick decisions
- Fulfilling, broad and varied field of tasks
- High-quality training and constructive feedback culture
- Latest high-tech gear for best performance and efficiency
- Immediately available full-time position with on-site approach
- Attractive compensation: 35k - 60k €/year depending on experience and skills
- Financial incentives based on jointly defined KPIs

Join Us

If you are ready to take the next step in your career by joining a team dedicated to safety, sustainability, and innovation, don't hesitate! Apply and start your journey with CAEmate today to make the infrastructure field safer and smarter.

CAEmate is proud to be an equal opportunity employer. We celebrate diversity and are committed to creating an inclusive environment for all employees.

Apply today and help us shape the future of the civil engineering industry!
